

AI & ML Video Assignment

27th October 2020

Linear Discriminant Analysis (LDA)

Please find attached the file for the practice problem on **LDA** for the students for AI&ML Batch - 3.

The problem statement is given below:

1. The given dataset "Parkinson_Dataset_2" contains data from class 0 and 1. Split the dataset into 90:10 train -test ratio.
2. Perform LDA on the dataset on the 90% split.
3. Test the accuracy on the 10% split.
